VARIETY OF THE MONTH

Calibracoa MiniFamous Compact Purple

The Compact MiniFamous series offers stunning characteristics; round carriage, easily controlled strength, uniformity across the series. This series is perfect for pots, planters and baskets mixed. New this year, the Compact MF Purple, very floriferous and a great complement to the Compact MiniFamous line.

Effectiveness;

A team of professionals handles your orders and answers your questions effectively while ensuring your complete satisfaction.

Speed ;

SFZ offers fast ordering service orders and delivery for all your last minute orders.

LES NOUVELLES ZYROMSKI!

Mix designs tips

It's not always easy to design a successful mix with the result we want.

Here are some tips that can help you in producing a mix for baskets and planters.

* **Use compatible plants:** Required sunlight, pH and fertilizer needs are elements that must be taken into consideration when choosing plants.

* **Use plants of similar strenght:** If a plant is much stronger than the other, it will often take over, thus stifling other plants and possibly kill them. If you want to use a much more vigorous plant in a mix (ex: Lobularia Snow Princess ©) put in a smaller quantity than the other plants used.

Visit our website to access our culture guide. You'll find lots of advice on all the plants we offer at Serres Frank Zyromski!

* **Choose your colors:** Selecting compatible colors that will enhance each other's qualities will show every item at its best. Tonal colors concepts is increasingly fashionable.

* **Be creative!**

SFZ team wishes you a great and successful season!
